“DON’T BAN EQUALITY”: A VICIOUS ASSAULT ON LIFE CORPORATE SIGNERS OF THE PRO-ABORTION STATEMENT

The following is the text of the Don’t Ban Equality statement signed by the leadership of hundreds of corporations.

Life Decisions International is currently engaged in extensive research of every corporation listed below. For example, do any of these corporations have a parent that can intervene and possibly overrule the signatory? As you can imagine, this is time-consuming and tedious work, but we want to provide all important information. Besides, who better to do such research than an organization that has been doing that kind of work for more than a quarter century?

We will also publish a statement on the document that will provide what we believe will be important talking points. We will point out now that the list of signatories primarily consists of small, local business owners. Its impact seems large when Don’t Ban Equality points to the number of corporations listed. But after a closer look, it becomes clear that with a handful of exceptions, the list consists of small businesses the owners of which cling to a rabidly pro-abortion philosophy. In other words, there is no reason to feel intimidated or anxious.

While these tasks will further delay our other projects, it is important we take advantage of the current political climate.

This list of signatories changes frequently. Consequently, we will do the same by providing regular updates.

The comprehensive version of this update includes information about several companies. All are posted as endnotes.

Note: We have reorganized the original document to list the corporations alphabetically. Companies of any noteworthiness are in italic type.

Don't Ban Equality
It's time for companies to stand up for reproductive healthcare

Equality in the workplace is one of the most important business issues of our time. When everyone is empowered to succeed, our companies, our communities and our economy are better for it.

Restricting access to comprehensive reproductive care, including abortion, threatens the health, independence and economic stability of our employees and customers. Simply put, it goes against our values and is bad for business. It impairs our ability to build diverse and inclusive workforce pipelines, recruit top talent across the states, and protect the well-being of all the people who keep our businesses thriving day in and out.

The future of gender equality hangs in the balance, putting our families, communities, businesses and the economy at risk.

We, the undersigned, represent more than 108,000 workers and stand against policies that hinder people’s health, independence and ability to fully succeed in the workplace. Complete list of signers below.
