“DON’T BAN EQUALITY”: A VICIOUS ASSAULT ON LIFE CORPORATE SIGNERS OF THE PRO-ABORTION STATEMENT

The following is the text of the Don’t Ban Equality statement signed by the leadership of hundreds of corporations.

Life Decisions International is currently engaged in extensive research of every corporation listed below. For example, do any of these corporations have a parent that can intervene and possibly overrule the signatory? As you can imagine, this is time-consuming and tedious work, but we want to provide all important information. Besides, who better to do such research than an organization that has been doing that kind of work for more than a quarter century?

We will also publish a statement on the document that will provide what we believe will be important talking points. We will point out now that the list of signatories primarily consists of small, local business owners. Its impact seems large when Don’t Ban Equality points to the number of corporations listed. But after a closer look, it becomes clear that with a handful of exceptions, the list consists of small businesses the owners of which cling to a rabidly pro-abortion philosophy. In other words, there is no reason to feel intimidated or anxious.

While these tasks will further delay our other projects, it is important we take advantage of the current political climate.

This list of signatories changes frequently. Consequently, we will do the same by providing regular updates.

This update includes information about several companies. All are posted as endnotes. There is much more to come.

Notes: We have reorganized the original document to list the corporations alphabetically. Companies of any noteworthiness are in italic type.

released July 2, 2019 at 8:00 PM Eastern
Don't Ban Equality

It’s time for companies to stand up for reproductive healthcare

Equality in the workplace is one of the most important business issues of our time.

When everyone is empowered to succeed, our companies, our communities and our economy are better for it.

Restricting access to comprehensive reproductive care, including abortion, threatens the health, independence and economic stability of our employees and customers. Simply put, it goes against our values and is bad for business.

It impairs our ability to build diverse and inclusive workforce pipelines, recruit top talent across the states, and protect the well-being of all the people who keep our businesses thriving day in and out.

The future of gender equality hangs in the balance, putting our families, communities, businesses and the economy at risk.

We, the undersigned, represent more than 108,000 workers and stand against policies that hinder people’s health, independence and ability to fully succeed in the workplace. Complete list of signers below.

¹ Majority-owned by Workers United, which is affiliated with the Service Employees International (Labor) Union.
² A subsidiary of privately held Access Industries.
³ A California-based community development that provides commercial banking services to underserved small and medium-size businesses, nonprofits, affordable-housing developers, community facilities, as well as families and individuals in the San Francisco Bay Area.
A New York City-based privately held financial, software, data, and media company. Former New York Mayor Michael Bloomberg, who founded the company, currently owns 88% of the company. On several occasions, Bloomberg has personally offered to make up any financial shortfall faced by Planned Parenthood. 

A San Francisco-based mobile virtual network operator that is a subsidiary of Working Assets. It financially supports “progressive” groups, such as Planned Parenthood. Working Assets

This company is included in The Boycott Handbook because it is a financial supporter of Planned Parenthood.

This “business” is involved in sex-related “research” of an especially raunchy nature. If you feel so inclined, and we hope you don’t, more information may be found here.

This company produces pornography they claim emphasizes “love” over sex. Most of its “actors” are unknowns.

A subsidiary of privately held Access Industries.
